

Serigne Darou Mbaye

CLOUD CYBER DEFENSE ANALYST

EMPLOYMENT HISTORY

Sr Associate in IAM and Data Protection - Avanade (Milan)

October 2025 - Present

- Led the design and deployment of enterprise-scale Microsoft Purview Data Loss Prevention (DLP) solutions across Microsoft 365 workloads and endpoint environments.
- Acted as a trusted advisor for data governance, compliance, and information protection, translating business and regulatory requirements into scalable security solutions.
- Delivered end-to-end Data Protection programs, including architecture design, policy implementation, pilot execution, tuning activities, and production rollouts within a highly regulated environment.
- Implemented and optimized advanced Microsoft Purview capabilities, including Endpoint DLP, Insider Risk Management (IRM), Exact Data Match (EDM), Document Fingerprinting, Trainable Classifiers, and Automated Workflows.
- Defined and enforced security controls to prevent unauthorized sharing, exfiltration, and exposure of sensitive and regulated information across cloud collaboration platforms and corporate endpoints.

Cyber Defense analyst Cloud & Application Security - Avanade (Milan)

March 2025 - September 2025

- Engineered and deployed Zero Trust security architectures utilizing Azure Active Directory (Azure AD) and Microsoft Defender XDR to fortify hybrid infrastructures.
- Configured and optimized Conditional Access policies and Multi-Factor Authentication (MFA) to enforce leastprivilege access controls and mitigate unauthorized access risks.
- Administered Microsoft Intune for comprehensive endpoint management, enforcing compliance policies including device encryption, antivirus deployment, and patch management.
- Conducted threat detection and incident response using Microsoft Defender for Identity, identifying and mitigating lateral movement and privilege escalation tactics.
- Implemented Purview Data Loss Prevention (DLP) strategies through Microsoft Purview, safeguarding sensitive data and ensuring compliance with regulatory standards.

Intern - Junior Cyber Security Analyst - Avanade (Milan)

November 2024 - March 2025

About Me

At the University of Milan I wrote a thesis on “Zero Trust & Microsoft Defender in M365/Azure,” focusing on endpoint DLP, Conditional Access, and Sentinel analytics. I blend hands-on work (KQL, automation, troubleshooting) with rigorous documentation to deliver repeatable solutions. Beyond tech, with Djieggo I curate African cinema for memory and dialogue. Same approach in both: rigorous analysis, clear communication, tangible impact.

Technical Skills

Zero Trust, Conditional Access, Microsoft Defender XDR, Purview DLP/Endpoint DLP, Intune MDM/MAM, Microsoft Sentinel, KQL, Microsoft Graph, PowerShell, Entra ID, SIEM, Incident Response, PKI, Secure Coding, Cloud Security (Azure/M365), Data Loss Prevention, JavaScript, Python, HTML/CSS, Git, Node.js

Languages

Italian
English
Wolof

- Supported SOC operations with Microsoft Defender XDR (Endpoint, Office 365, Identity, Cloud Apps): alert triage, IOC enrichment, phishing/malware investigation, MITRE ATT&CK mapping.
- Built/tuned SIEM use cases in Microsoft Sentinel: data connectors (M365/Entra ID/Defender/Power Platform), KQL analytics & hunting, incident rules, watchlists, and reporting workbooks.
- Implemented SOAR playbooks (Logic Apps): auto-isolate device (MDE), block URL/file hash, suspend risky accounts, notify ServiceNow/Jira.
- Delivered Intune MDM/MAM baselines: device compliance, configuration profiles, App Protection (MAM-only), Windows Autopilot, BitLocker, Defender AV posture.
- Assisted IAM hardening in Entra ID: Conditional Access, MFA/SSPR, session controls, device/user risk, PIM activation policies.
- Deployed Microsoft Purview DLP (Endpoint + Exchange/SharePoint/Teams): sensitive info types/EDM, auto-labeling (MIP), exclusions tuning, false-positive reduction.
- Used Defender Vulnerability Management (TVM): exposure score, software inventory, remediation tasks, patch rings via Intune.
- Wrote PowerShell / Microsoft Graph API automations for policy assignment, device onboarding, inventory and compliance exports.
- Produced runbooks/SOPs and post-incident reports (RCA); tracked work in ServiceNow/Jira with measurable SLAs.
- Mapped controls to Zero Trust pillars, NIST CSF, ISO/IEC 27001, GDPR requirements.

Founder & Curator - Djiaggio

2020 - Present

Curate film programs spotlighting African cinema and new voices; moderate post screening conversations on migration, memory, and social change; build partnerships with filmmakers, festivals, and cultural orgs to expand access and audience engagement across Italy and Senegal.

EDUCATION

Bachelor in Cybersecurity System and Network Security - University of Milan

2021 - 2025

Network Security, Cryptography, System Security, Secure Coding, Incident Response, IAM/PKI, Cloud Security, SIEM & Log Analytics.

LICENSES & CERTIFICATIONS

- Advanced Pen Testing Techniques (Skillsoft - 2025)
- A5 and A1: Security and Injection (Skillsoft - 2025)

- Microsoft Azure Security Technologies: Identity & Access Security Controls (Skillsoft - 2025)
- A8 and A3: Cross-Site Attacks (Skillsoft - 2025)
